

# PureChlor Chlorine Dioxide

The PureChlor Chlorine Dioxide System is the perfect solution for the treatment of onsite water. The system incorporates a PLC controlled system which provides the capability to produce active sterilant and disinfectant for onsite applications

## Chlorine Dioxide for medical use

- Efficient, low chemical usage
- Most cost effective control of Legionella
- A wide spectrum of activity, covering all microbiological species
- Little opportunity for the development of resultant species
- Powerful oxidising agent, low dosages effect a high level of microbiological control
- Fast acting over a wide range of pH
- Does not form halogenated derivatives with unsaturated bonds
- Acts only by oxidation, hence does not produce harmful by products
- Approved by The Drinking Water Inspectorate
- Systems for complete sites or point of use
