

ROLE SUMMARY: Proposals Engineer (UK)

Envirogen is a fast-growing water treatment company that is challenging the status quo in industrial water treatment and process filtration markets, enabling customers to reach new quality standards. We do this by constantly innovating, responding to market needs, providing flexibility and generating lasting partnerships that empower our customers and our people to grow.

Decisions are made without the bureaucratic processes associated with other water treatment companies, which means decisions are made quickly. We are committed to creating a positive, lasting change for businesses, communities, our planet and our people.

We are looking for a highly motivated Technical Sales Support Manager to join our talented Sales team and help us build the future of work.

We are looking for a talented and experienced Proposals Engineer to join our team and help us build the future of work.

Responsibilities:

- Develop process designs from RFQs submitted by the sales team.
- Develop cost sheets for review and sign off.
- Technical proposal writing to support the external sales team.
- Management of external partners to ensure accuracy of execution costings.
- Liaise with internal and external engineers, consultants and subcontractors to construct and formulate estimates and resolve issues.
- Analyse drawings, specifications and other documentation for estimate preparation prepare.
- Identify and provide alternative design proposals, solutions and value engineering options.
- Support the sales team on site visits ahead of proposal submission.

Qualifications and experience required:

An electrical, mechanical or chemical engineering qualification is essential (at least HNC or HND would be desirable).

GCSE or equivalent Pass in English & Maths is essential.

Good IT knowledge & skills eg Microsoft Office Suite is Essential; Microsoft Projects, CAD are desirable.

Ability to engage and communicate effectively with internal and external contacts in a professional manner.
